## FREEDOM OF INFORMATION PUBLICATION SCHEME

### 1. What is and why does the Board use a publication scheme?

- 1.1. The Freedom of Information Act 2000 (“the Act”), as amended by the Protection of Freedoms Act 2012, the Environmental Information Regulations 2004, the Re-use of Public Sector Information Regulations 2005 and the Infrastructure for Spatial Information in the European Community Regulations 2009 (INSPIRE) gives a general right of access to and re-use of recorded information held by public authorities, sets out exemptions from those rights and places a number of obligations on public authorities. The Board is deemed to be a non-departmental public body for the purposes of the Act.
- 1.2. Further information about the Act can be obtained from the Information Commissioner’s Office (<https://www.ico.org.uk>).
- 1.3. The Board is required to adopt and maintain a publication scheme setting out the classes of information it holds, the manner in which it intends to publish the information, and whether a charge will be made for the information. The purpose of a Publication Scheme is to ensure a significant amount of information is available, without the need for a specific request. Schemes are intended to encourage organisations to publish more information proactively and to develop a greater culture of openness. This Publication Scheme has been developed for non-departmental public bodies in conjunction with the Information Commissioner’s Office.
